

ABOUT US

WE BRING WORLD OF EDUCATION AND
TECHNOLOGY TOGETHER

OUR EDTECH VISION

WE BELIEVE THAT YOUNG PEOPLE FROM WESTERN BALKANS NEED TO HAVE ACCESS TO THE HIGHEST QUALITY OF EDUCATION, WHERE THEY CAN DEVELOP SKILLS THAT WILL HELP THEM IMPROVE THE QUALITY OF THEIR LIVES AND COMMUNITIES IN THE 21ST CENTURY.

OUR EDTECH PRIORITIES

1) Digital Skills

Development of human capacities in a knowledge-based economy through the improvement of digital skills and competencies of employees in education. We support education professionals to develop digital skills of student and to prepare them for world of tomorrow.

2) Quality of Education

We improve the quality of the education system by smarter and better use of information and communication technologies at all levels of education. We do not believe that every technology deserves to be used by teachers and students. This is why we supports schools on how to user technology they already have and if they aim to procure new administration and teaching aids, how to that in order to increase impact and value for money.

3) Accessibility, openness, efficiency and equity

We support development of accessibility, openness, efficiency and equity of education through the use of innovative technologies. Innovation and technological development have important role in creating new opportunities for learning for everyone, including people with disabilities.

OUR EDTECH PRIORITIES

4) Policy development

We will contribute to the development of educational policies, instruments and interventions in the field of educational technology and information communication technologies in education. We will do this by working closely teachers, parents, policy makers and businesses.

5) Celebrating best practice

We will actively support and promote innovation and excellence in educational institutions across the region. With our EdTech ambassadors we will spread equally knowledge about best practices in EdTech and promote success of teachers and EdTech companies.

6) Research and development

We will aim to establishing closer cooperation and better linkage between digital economy and education in order to support the research and development in the field of educational technologies. We will develop and promote mechanisms for evaluating EdTech interventions and use it for further innovation. We will design and participate in development of EdTech products and services in accordance with the needs of users, particularly assistive technologies.

OUR EDTECH PRIORITIES

7) Digital resources

We will support the development of open and online education, open educational resources and digital textbooks. We will work with international, regional and local publishers on development and localisation of digital content for all levels of education

8) Evaluation

Finally, we will aim to provide significant contribution to the development of quality assurance systems in the field of EdTech, online and distance learning. We will measure impact on student learning, achievements and overall school performance.
